

YIZETA PTE LTD

Decontamination
Experts Since 2005

Providing Decontamination Solutions for 15 Years

Products

Services

Products

Designed and Produced in Singapore

Decontamination Chamber

Air Pressure Resistant Doors

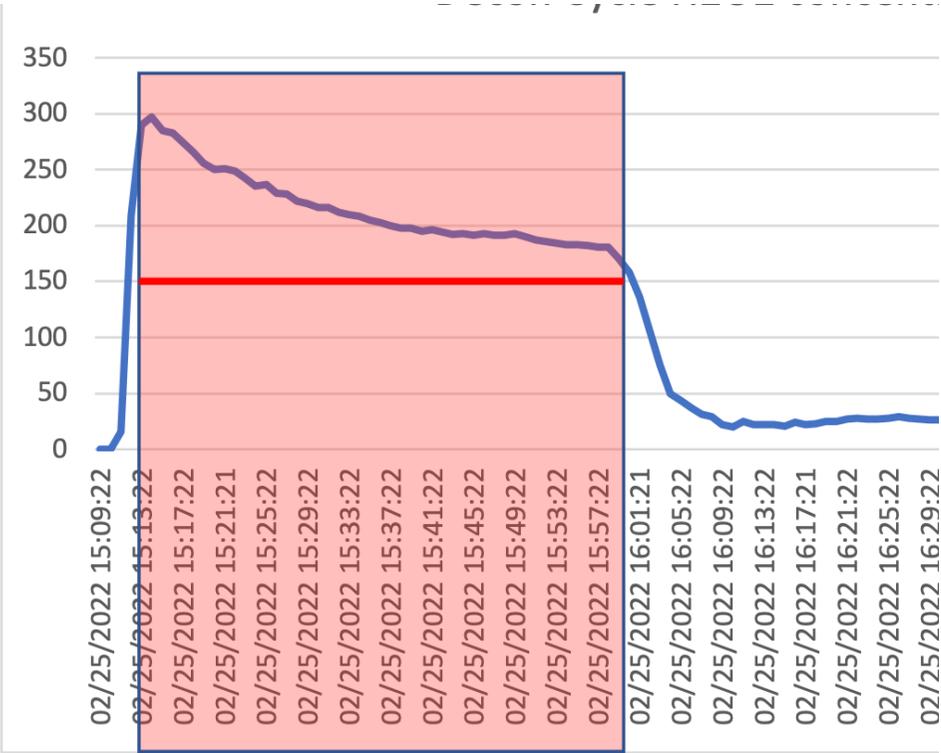

Room Decontamination Units

Equipment Decontamination Units

HEPA/HVAC Decontamination Units

Products

Designed and Produced in Singapore

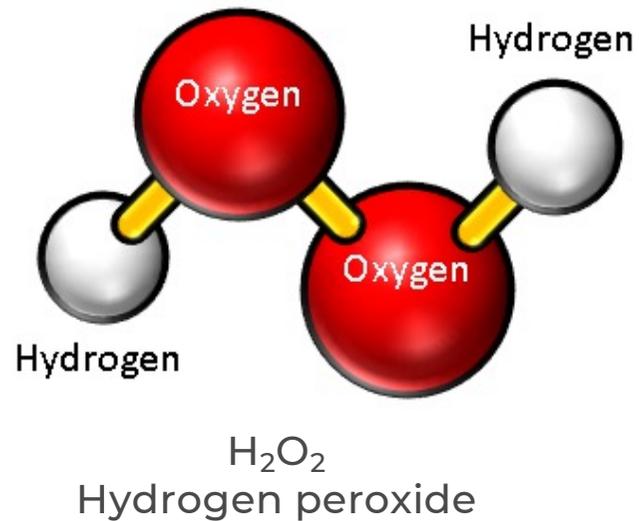

Real-time Hydrogen peroxide Monitoring

- Reliable
- Consistent
- Repeatable

Decontamination Agents

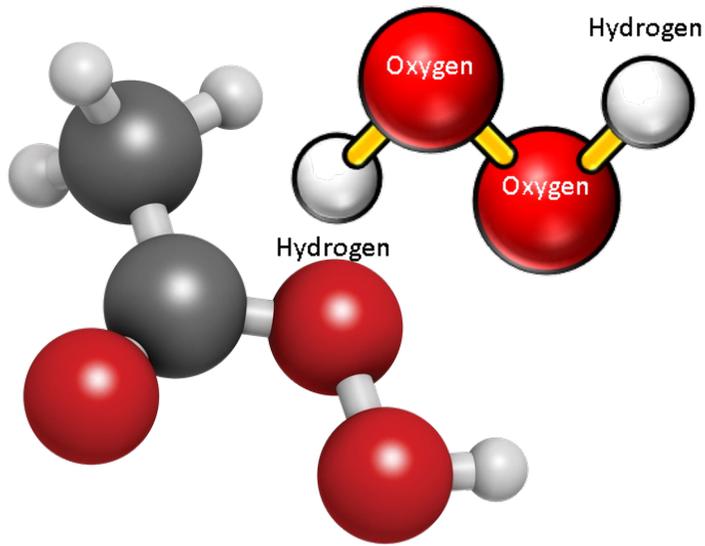

Solutions. Not Limitations.

- 30% lesser concentration used than competitions
- NON-HEATED, temperature stable
- Degrades to water and Oxygen
- No residue
- Material-friendly
- Facility downtime
- Preferred choice for many facilities

Decontamination Agents

Solutions. Not Limitations.

$H_2O_2 + C_2H_4O_3$
Hydrogen peroxide plus
Peracetic acid

- 70% lesser concentration used than competitions
- No residue
- Not affected by catalase degradation
- Effective with blood/organic materials

Decontamination Agents

Solutions. Not Limitations.

ClO_2
Chlorine dioxide

- Alternative decontamination agent
- May be used in HEPA banks

Services

Solutions. Not Limitations.

Bio/Healthcare Facilities

BSL-3
SPF
Isolation Wards
GMP manufacturing plants

API

Beta Lactam Plants
HVAC Systems

Services – Pharmaceutical Plant decontaminations

Solutions. Not Limitations.

Beta lactam
decontamination -
Overseas

Following Pharmaceutical
standard in:

Documentation
Site Management
Safety
Validation

Services

Solutions. Not Limitations.

Bio/Healthcare Facilities

BSL-3
SPF
Isolation Wards
GMP manufacturing plants

API

Beta Lactam Plants
HVAC Systems

Chemical Compounds

Ethinylestradiol
Levonorgestrel

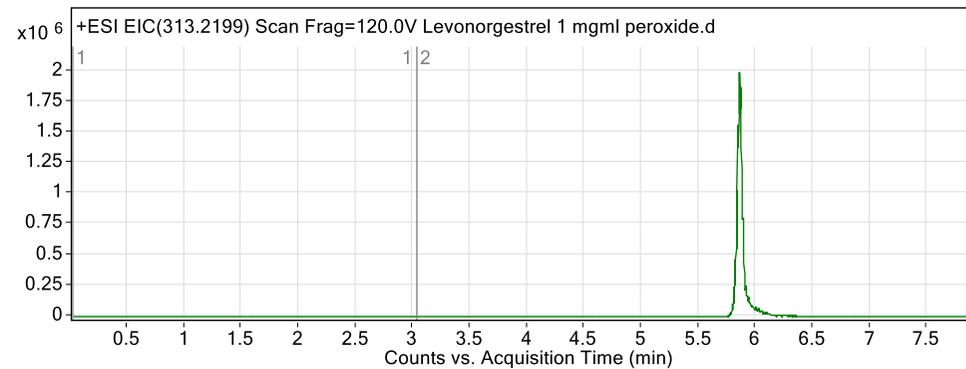

Services – Cytotoxic/Toxic Compound Decontaminations

Solutions. Not Limitations.

Levonorgestrel and
estradiol production
facility - Overseas

Determining the effectiveness of Inactivation agent on Ethinylestradiol and Levonorgestrel

Quantitation of compounds
using LC/MS analysis
